BEAUTY FROM THE EARTH

Philosopher and poet George Santayana said, “The earth has its music for those who will listen.” The breathtaking, dazzling wonders of this planet have never ceased to amaze and inspire the human mind. From majestic structures to the humblest wildflowers dancing in vast fields, people have always connected with nature and drawn ideas from her beauty. D’Terra Residences comes from this same spirit of revelation - a tribute to nature, a concept birthed from the brilliance and magic of this earth we call home.

INSPIRED BY THE LAND

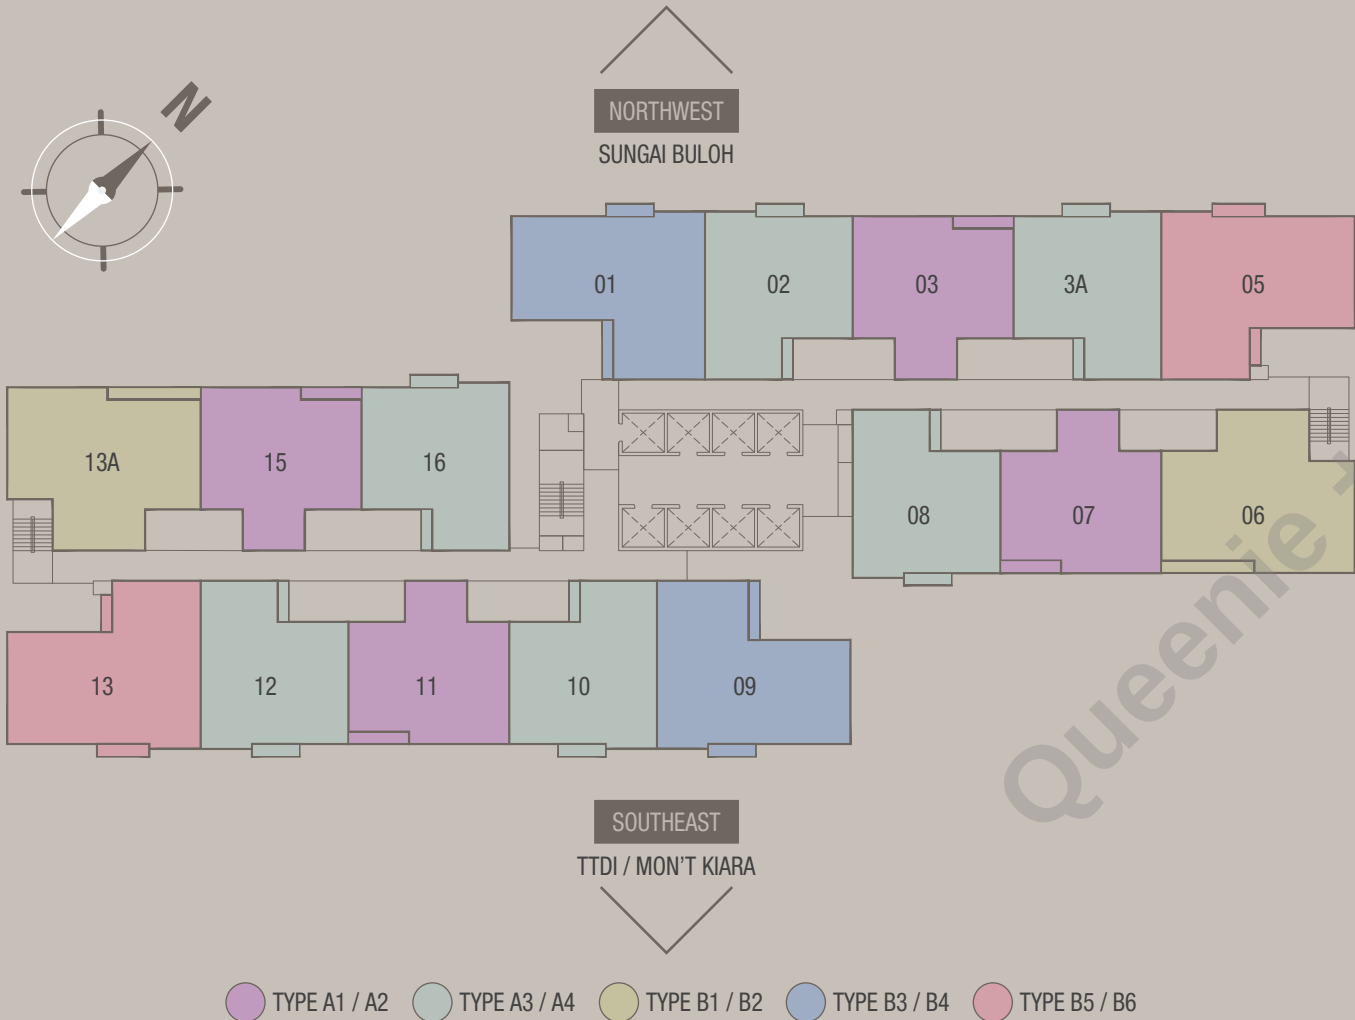

Awash with warm earthy tones, D’Terra Residences honours the land on which it stands on with bold imagination and inventiveness. A single, sturdy monolith rises into the sky, quietly elegant in its contemporary design. Against this, a series of colours, layers and textures are projected to create a striking masterpiece mimicking nature with adroit cleverness. Steps, terraces and interval levels model the natural terrain. Undulating lines and curved formations elevate the space with earth’s own artistry. Choice plants and landscaping recreate the stunning lushness of the wild, while wood and stone hardscapes complete the imagery.

FLOOR PLAN

FLEXIBLE LIVING FOR ALL

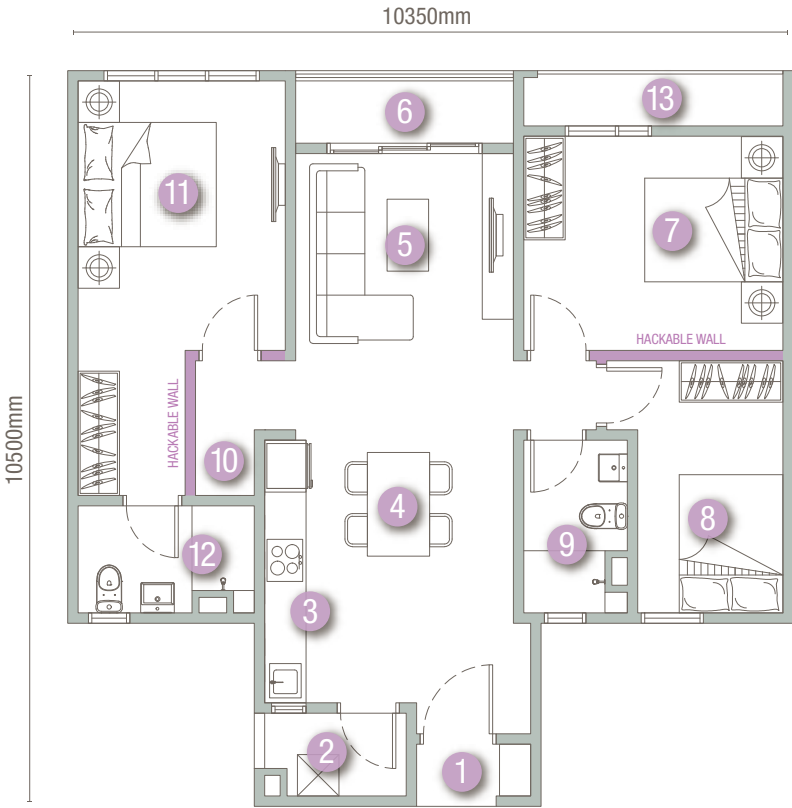

Individual preferences are catered to with a choice of 3 bedrooms and 3+1 bedrooms units. Ranging in size from 956 to 1,179 sq ft with flexible, hackable walls, the residences are designed to optimize space usage while allowing room for adaptation and personal creativity. For elderly or special needs residents, D'Terra Residences also offers selected units with build-in ramps at the foyer and bathroom in addition to hackable walls to accommodate different living needs.

FACILITIES PLAN

A PRIME ADDRESS IN PETALING JAYA

D'Terra Residences forms part of an up-and-coming integrated township in North Petaling Jaya. It is surrounded by every kind of conveniences within the township, including a sprawling new green lung that envelops one facade of the building. A network of roads, highways and expressways also connects the area to other major cities and neighbourhoods where ample facilities and amenities are available.
